# **SECTION 1: Identification of the substance/mixture and of the company/undertaking**

# 1.1. Product identifier

Hesse COOL-PROTECT HI 6600-9343

1.2. Relevant identified uses of the substance or mixture and uses advised against

### Use of the substance/preparation

Surface treatment of wood and other materials

### 1.3. Details of the supplier of the safety data sheet

### Manufacturer

 Hesse GmbH & Co. KG

 Warendorfer Strasse 21

 59075 Hamm (Germany)

 Telephone no.
 +49 (0) 2381 963-00

 Fax no.
 +49 (0) 2381 963-849

 E-mail address
 ps@hesse-lignal.de

1.4. Emergency telephone number

Germany: +49 (0) 2381 788-612

# **SECTION 2: Hazards identification**

### **2.1. Classification of the substance or mixture**

### Classification (Regulation (EC) No. 1272/2008)

This product is not classified hazardous in accordance with Regulation (EC) No 1272/2008.

# 2.2. Label elements

# Labelling according to regulation (EC) No 1272/2008

EUH208 Contains 1,2-benzisothiazol-3(2H)-one, reaction mass of: 5-chloro-2methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H -isothiazol-3- one [EC no. 220-239-6] (3:1); reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-4-isothiazolin-3- one [EC no. 220-239-6] (3:1), May produce an allergic reaction.

### Supplemental information

Safety data sheet available on request.

### 2.3. Other hazards

EUH210

The product contains no PBT substances. The product contains no vPvB substances. This product does not contain a substance that has endocrine disrupting properties with respect to human. The product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms.

### **SECTION 3: Composition/information on ingredients**

### Hazardous ingredients

**1,2-benzisothiazol-3(2H)-one** CAS No. 2634-33-5

Note					
For explanation of al	obreviations see section 16				
SECTION 4: First aid m	easures				
4.1. Description of firs	t aid measures				
General information					
Remove affected pe	rson from danger area, lay				
	I attention. Get medical ad	vice/atte	ntion if you	feel unwell.	First aider: Pay attention

When spray fog inhaled, seek medical aid.

#### After skin contact

Wash off immediately with soap and water. Do NOT use solvents or thinners. Consult a doctor if skin irritation persists.

Version: 9/GB

Replaces Version: 8 / GB

Revision: 17.08.2023 Print date: 31.08.23

#### After eye contact

Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. Take medical treatment.

#### After ingestion

Do not induce vomiting. Take medical treatment.

#### 4.2. Most important symptoms and effects, both acute and delayed

Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

### 4.3. Indication of any immediate medical attention and special treatment needed

Hints for the physician / treatment

Treat symptomatically.

### **SECTION 5: Firefighting measures**

### 5.1. Extinguishing media

#### Suitable extinguishing media

Recommended: alcohol resistant foam, CO2, powders, water spray/mist

### Non suitable extinguishing media

Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

Fire will produce dense black smoke. In a fire, hazardous decomposition products may be produced. Exposure to decomposition products may cause a health hazard.

### 5.3. Advice for firefighters

#### Special protective equipment for fire-fighting

In case of combustion evolution of dangerous gases possible. Use self-contained breathing apparatus.

#### Other information

Do not allow run-off from fire fighting to enter drains or water courses. Cool closed containers exposed to fire with water. Standard procedure for chemical fires.

### **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not inhale vapours. Do not inhale gases. Do not inhale mist.

### 6.2. Environmental precautions

Do not allow to enter drains or waterways. Do not allow to enter soil, waterways or waste water canal. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

### 6.3. Methods and material for containment and cleaning up

Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13). Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations. Do NOT use solvents or thinners. Send in suitable containers for recovery or disposal.

### 6.4. Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

Version: 9/GB

Replaces Version: 8 / GB

Revision: 17.08.2023 Print date: 31.08.23

## **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

#### Advice on safe handling

Keep container tightly closed and dry in a cool, well-ventilated place. Avoid contact with skin and eyes. Avoid inhalation of vapour and spray mist. Do no eat, drink or smoke when using this product. Use personal protective clothing. For personal protection see Section 8.

#### Advice on protection against fire and explosion

Fight fire with normal precautions from a reasonable distance.

### 7.2. Conditions for safe storage, including any incompatibilities

#### Storage stability

Protect from frost.

#### Requirements for storage rooms and vessels

Keep only in the original container in a cool, well ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

#### Hints on storage assembly

Store away from oxidising agents, from strongly alkaline and strongly acid materials.

10

#### Storage classes

Storage class according to TRGS 510

Flammable liquids

#### Further information on storage conditions

Keep away from heat. Protect from sunlight. Keep away from sources of ignition - No smoking. Store in accordance with the particular national regulations.

### 7.3. Specific end use(s)

See exposure scenario, if available.

### **SECTION 8: Exposure controls/personal protection**

### 8.1. Control parameters

### Other information

### Derived No/Minimal Effect Levels (DNEL/DMEL)

reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H -isothiazol-3- one [EC no. 220-239-6] (3:1); reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-4-isothiazolin-3- one [EC no. 220-239-6] (3:1)

### 8.2. Exposure controls

#### **Exposure controls**

Users are advised to consider national Occupational Exposure Limits or other equivalent values. Provide for sufficient ventilation. This can be achieved by local exhaust or general exhaust air collection. Wear a suitable respirator if the ventilation is not sufficient to keep the solvent vapour concentration below the occupational limit values.

#### **Respiratory protection**

Avoid inhalation of vapour and spray mist. Use breathing apparatus if exposed to vapours/dust/aerosol. Recommended Filter type: Respiratory protection mask with combination filter A/P2

#### Hand protection

Protective gloves complying with EN 374.

#### Glove material Appropriate Ma

Appropriate Material	butyl-	rubber	
Material thickness	>=	0,5	mm
Breakthrough time	>=	120	min

This recommendation is valid only for the product named in this safety data sheet supplied by us, and only for the indicated intended use purposes.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.

The breakthrough time must be greater than the end use time of the product.

Gloves should be replaced regularly and if there is any sign of damage to the glove material.

The performance or effectiveness of the glove may be reduced by physical/ chemical damage and poor maintenance.

### Eye protection

Safety glasses with side-shields conforming to EN166

#### **Body protection**

Wear suitable protective clothing. Remove contaminated clothing and wash it before reuse. Wash hands before breaks and after work.

# **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

Stable under recommended storage and handling conditions (see section 7).

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

To avoid thermal decomposition, do not overheat.

### 10.4. Conditions to avoid

Isolate from sources of heat, sparks and open flame.

#### 10.5. Incompatible materials

Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

#### 10.6. Hazardous decomposition products

Carbon monoxide and carbon dioxide, nitrous oxides (NOx), dense black smoke, No decomposition if used as prescribed.

#### -isothiazol-3- one [EC no. 220-239-6] (3:1); reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-4-isothiazolin-3- one [EC no. 220-239-6] (3:1) Scenedesmus capricornutum (fresh water algae) Species FC50 0.018 ma/l Duration of exposure 72 h **Bacteria toxicity (Components)** reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H -isothiazol-3- one [EC no. 220-239-6] (3:1); reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-4-isothiazolin-3- one [EC no. 220-239-6] (3:1) activated sludge Species **EC50** 4.5 ma/l 12.2. Persistence and degradability **General information** For this subsection there is no ecotoxicological data available on the product as such. **Biodegradability (Components)** 1,2-benzisothiazol-3(2H)-one evaluation Readily biodegradable. reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H -isothiazol-3- one [EC no. 220-239-6] (3:1); reaction mass of: 5-chloro-2- methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-4-isothiazolin-3- one [EC no. 220-239-6] (3:1) Not readily biodegradable. evaluation 12.3. Bioaccumulative potential **General information** For this subsection there is no ecotoxicological data available on the product as such. Partition coefficient n-octanol/water (log value) Remarks not determined 12.4. Mobility in soil **General information** For this subsection there is no ecotoxicological data available on the product as such. Mobility in soil no data available 12.5. Results of PBT and vPvB assessment **General information** For this subsection there is no ecotoxicological data available on the product as such. **Results of PBT and vPvB assessment** The product contains no PBT substances The product contains no vPvB substances. 12.6 Endocrine disrupting properties Endocrine disrupting properties with respect to the envrionment The product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms. 12.7. Other adverse effects Page 11(13)

Revision: 17.08.2023 Print date: 31.08.23

### **General information**

For this subsection there is no ecotoxicological data available on the product as such.

# **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

Disposal recommendations for the pro-	duct
EWC waste code	080111 - waste paint and varnish containing organic solvents or other dangerous substances
EWC waste code	200127 - paint, inks, adhesives and resins containing dangerous substances
Where possible recycling is preferred to dis	sposal or incineration.
Do not allow to enter drains or waterways.	
modified product	
EWC waste code	080115 - aqueous sludges containing paint or varnish
	containing organic solvents or other dangerous substances
Dried residues	
EWC waste code	080112 - waste lacquers and waste paint except those falling under 080111
Disposal recommendations for packag	ing

#### E

EWC waste code

150110 - packaging containing residues of or contaminated by dangerous substances

Completely emptied packagings can be given for recycling.

### **SECTION 14: Transport information**

	Land transport ADR/RID	Marine transport IMDG/GGVSee	Air transport ICAO/IATA
14.1. UN number	Not classified as dangerous in the meaning of transport regulations.	Not classified as dangerous in the meaning of sea and air transport regulations.	Not a dangerous substance as defined in the above regulations.

# **SECTION 15: Regulatory information \*\*\***

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

VOC				
VOC (EU)	0,1	%	1	g/l
Other information All components are containe	d in the ENCS in	ventory.		
SECTION 16: Other informatic				

nazaru statements iisteu iii chapter 5	
H301	Toxic if swallowed.
H302	Harmful if swallowed.

Trade name: Hesse COOL-PROTECT HI 6600-9343

Revision: 17.08.2023 Print date: 31.08.23

H310	Fatal in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H330	Fatal if inhaled.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
CLP categories listed in (	Chapter 3
Acute Tox. 2	Acute toxicity, Category 2
Acute Tox. 3	Acute toxicity, Category 3
Acute Tox. 4	Acute toxicity, Category 4
Aquatic Acute 1	Hazardous to the aquatic environment, acute, Category 1
Aquatic Chronic 1	Hazardous to the aquatic environment, chronic, Category 1
Aquatic Chronic 2	Hazardous to the aquatic environment, chronic, Category 2
Eye Dam. 1	Serious eye damage, Category 1
Skin Corr. 1B	Skin corrosion, Category 1B
Skin Irrit. 2	Skin irritation, Category 2
Skin Sens. 1	Skin sensitization, Category 1
