First-class customer service

Your COOL family quintet

The COOL family comprises a one component water-based lacquer system. It includes our COOL-FILL Filler primer, COOL-COLOR Coloured Topcoat, COOL-TOP Clear multicoat lacquer, and our COOL-NATURA Natural wood effect. The COOL family enables you to master the majority of surface requirements on high quality interior fittings. And all of the above in a low-emission, low-flammable and sustainable manner.

Your unbeatable COOL family!

COOL-PROTECT

A thixotropic 1K HYDRO Pigment filler with powerful filling properties and outstanding isolating characteristics relative to the contents of the wood. As an isolating primer under coloured finished, it reliably seals off the wood content and prevents bleeding into the colouring coat.

- 1C Isolating filler to counter discolouring wood ingredients
- For use on HEVEA and other „problematic woods“
- Reliable protection on most woods, even with just one application.
- Good sanding properties
- Ideal isolation for combination with COOL-FILL

COOL-PROTECT

Order number: HI 6600-9343

Packaging size: 7kg, 25kg

COOL-FILL

Our COOL-FILL is an ideal choice of filler on the widest variety of woods, priming foils and MDF, even on MDF edges.

- Powerful filling
- Thixotropic
- Fast-drying
- Can be recoated using other lacquer systems (such as PU)
- Low-flammable according to DIN EN 13501-1 and IMO

COOL-FILL

Order number: HP 6645-9343

Packaging size: 7kg, 25kg

COOL-COLOR

Our COOL-COLOR features great opacity, great scratch resistance and an especially elegant surface formation.

- VOC content < 3 %, thus also suitable for “Green Building” items
- Good coverage
- Use as a glass coating (3 % HDR 5002)
- Fire behaviour classified under DIN EN 13501-1 and IMO

COOL-COLOR

Order number: HB 65285-colour tone

Packaging size: 1L, 3L, 5L, 25L

COOL-TOP

Our COOL-TOP has a wide range of applications and is suitable both as a basecoat and for open- to closed-pored top coat finishing applications.

- VOC content < 3 %, thus also suitable for “Green Building” items
- Flame retardant according to EN 13501-1 and IMO
- Non-slip class R10 per DIN 51130 (after addition of HZ 75)
- Can be used on bleached wood
- Certified FIRA 6250

COOL-TOP

Order number:

Gloss

matt HE 65092 08-12/125 µm

matt HE 65093 13-17/125 µm

Silk matt HE 65094 18-23/125 µm

Silk matt HE 65096 30-39/125 µm

Satin gloss HE 65097 40-59/125 µm

Packaging size: 5L, 25L

COOL-NATURA

Surfaces coated with COOL-NATURA are captivating due to their warm, organic natural wood feel. The wood is protected, yet at the same time it appears to be untreated.

- Genuinely feels like real natural wood
- Is as matt as bare wood, even from every viewing angle
- Meets DIN 68861 1c
- VOC content < 3 %
- Excellent scratch resistance
- 7 % proportion of renewable raw materials

COOL-NATURA

Order number: HE 64500

Packaging size: 5L, 25L
